BUDGET MESSAGE

St. Tammany Parish Coroner's Office

Proposed Amended Budget for Calendar Year 2025

and

Proposed Operating Budget for Calendar Year 2026

I submit the amended budget for the calendar year 2025, beginning January 1, 2025, and the proposed budget for calendar year 2026, beginning January 1, 2026. This budget represents a continuation of present service levels. The amounts included within the budget are based on cash estimates. The budget documents attached include anticipated revenues and expenditure for the General Fund. Significant aspects of the budget are detailed below.

STPCO is currently operating off revenues from other services and the surplus that built up in the General Fund over the course of the 20 year Coroner millage. This Coroner millage expired in 2024 with final collections occurring through 2025. The General Fund balance is budgeted to decrease from the prior year's budget due to the St. Tammany Parish Authority withholding the final year of the ad valorem taxes from the STPCO. The 2025 budgeted revenue has been decreased to \$0, from \$9,198,586.63, due to the Parish Authority withholding the recently collected ad valorem taxes from STPCO.

As of the date of this proposed and amended budget, the Parish continues to hold the ad valorem taxes due to STPCO during 2025. The Parish Authority has obtained a Writ of Mandamus for STPCO to turn over all ad valorem taxes in excess of what was necessary to cover expenses through December 31, 2024, to be in compliance with LA R.S. 13:5773. The Parish Authority demanded approximately \$14,000,000. STPCO has calculated, based on 20 years of audited financial statements, GAAP and GASB standards, and the Parish Authority's own fund balance spending policy, the excess amount of ad valorem taxes held by STPCO to be \$0. The status of the ad valorem taxes and the Constitutionality of LA R.S. 13:5773 are the subject of unresolved litigation.

STPCO has requested reimbursement for necessary and unavoidable expenses for the 1<sup>st</sup> and 2<sup>nd</sup> quarters of 2025 from the ad valorem taxes being held by the Parish Authority. This resulted in a motion to hold in contempt against the Coroner. This litigation is still pending and could significantly impact the budget, including the possibility to make a major amendment to the budget early in 2026.

The Coroner's office will operate with higher budgeted payroll expenses due to the need to add staff members in the DNA lab and the pursuit of an in-house forensic pathologist. The instability of future revenues is an obstacle to recruiting qualified individuals positions necessary to maintain the accreditation of the DNA Lab and to generate revenues through offering services from non-ad valorem sources.

Purchased and Technical Services includes funding for contracted forensic pathologists to cover until one can be hired on staff, as well as funding legal matters against the Parish Authority related to Act 151 transfer of property and the previously discussed litigation. The DNA Lab continues to qualify for grant-funded equipment purchases to upgrade equipment with new and improved technologies. However, the litigation with the Parish Authority is currently delaying the receipt of grant funds.

We have attempted to present a budget that will be helpful in formulating a financial plan for the ensuing budget year and the need to stretch the budget until millage issues are resolved for future years' funding.

I will be available for any information or help that may be needed in interpreting specific items of the budget. Additionally, should the public hearing result in adjustments to this document, I am prepared to incorporate those into the budget.

PROPOSED AMENDED BUDGET RESOLUTION

RESOLUTION 2025B
